

SS Goldendoodles & Puppy family Agreement

SS Goldendoodles Whiting Street, Hanover, MA 02339; (857) 346-7178;
ssgoldendoodles@gmail.com www.ssgoldendoodles.com

Please read and initial below to agree with our terms:

A deposit of \$500 received on _____, which is a **NON-REFUNDABLE DEPOSIT**.

50% of remaining balance due when the puppy is 4 weeks old and final payment is due at pick up Bank check or Cash. If you want to pay with personal check it is due two weeks before puppies departure.

Our puppies are guaranteed to be in good health and free of life-threatening congenital defects. Should the puppy be diagnosed with a life-threatening congenital disorder within two years, we will replace the puppy with another puppy as soon as one becomes available (We know we cannot replace a part of your family but the option of another puppy is here) or refund the purchase price (certain conditions apply).The puppy’s health is guaranteed for 7 days from time of possession from any hereditary defects that are life threatening. During this time the puppy should be examined by your vet to confirm its soundness. Excluding any accidents, fleas, mites, hernias, cough, parasites and worms. Puppy must be returned with a vet report, we do not pay vet bills. Buyer agrees to provide usual and customary care and vet services for this animal’s lifetime. **Initial**_____

Items not covered by your Health Guarantee: *Parasites: including Giardia and Coccidia, worms, mites, fleas, cough, other pests, which are common in puppies. All puppies are dewormed at 2, 4, 6, and 8 weeks of age. All canines should be on a maintenance schedule to control worms specific to the area that the puppy resides in. It is possible that the stress natural to the readjustment to their new home can cause some puppies to experience minor health challenges. **Initial**_____

These actions will VOID your Guarantee -

1. After you have had your pup for 3 months, it should have adjusted to its new environment. We recommend you keep the puppy on the same food that it has been weened on and you can feed treats sparingly. Too many treats too often will give your pup diarrhea.
2. We have a lot of experience in raising healthy, beautiful, Goldendoodles. We know our breed and have a lot of practical experience in keeping them healthy and vibrant. We will be happy to give you practical advice. Your puppy should not need any extraordinary treatments to keep it healthy.
3. If your puppy is having a health problem, you must notify us within one week of the the onset of a health problem. We will be more than happy to give you information to help get your puppy back on track. Do not allow any invasive treatments without first consulting with us for our opinion. As we do receive many emails daily and it can be difficult for us to read them all, please use the family email address for faster response.
4. Letting your vet do invasive procedures without first notifying us by email or text and allowing 72 hours for a response to the problem your pup is experiencing. We do not pay vet bills.

Bringing a new puppy into your home is a lifetime commitment. We wish loving, patient and stable homes for all our puppies. Puppies are like baby humans, they require lots of support and patience. Never be harsh with your puppy. Harshness or impatience delays the training progress. Mistakes will be made in the beginning, the puppies are babies. If you do not have the time to train a new puppy, please do not purchase from us. **Initial**_____

Each puppy will be accompanied with their health records, and a sample of Fromm Puppy Food. Puppies are babies, similar to a human baby. Patience, consistency, cuddling and verbal rewarding are of most importance in training your puppy. No scolding, as it will make your puppy not let you know when they have to relieve themselves. The more consistent their humans are, the faster and easier it will be to completely house train your puppy. It is very important that you have time, patience and the right technique to take your puppy through this first important step. After potty training is complete and your puppy will go on command, you can start with the next lesson. When the puppy is 4 months old and has had it's last booster shot, it is then time to take your puppy to puppy training classes. These classes are very important to help your puppy to learn basic commands and for you to learn how to give the commands in the way puppies understand. Taking the time to do this will make your relationship with your new puppy a true joy. People will be amazed to see how well your puppy responds to your requests. **Initial**_____

We have a lifetime take back guarantee, meaning at any time for any reason you can no longer care for the dog we require notification and we will take him/her back without hesitation and other custody arrangements will be made. If you have another family in mind for the dog we would require an application from them and we would have final say. We do this to assure our puppies never end up in a shelter at any given time during its life and always have a family to care for them. **Initial**_____

This puppy is sold on a spay/neuter agreement by 6 months old. The owner has no breeding rights. If dog is not fixed by 7 months old is cause for me to repossess the puppy until spay/neuter can be scheduled and performed **Initial**_____

Puppies will have age appropriate medical care, grooming, training and socializing. Buyer agrees to provide usual and customary care and vet services for this animal's lifetime. **Initial**_____

SS Golendoodles can change their mind in selling this puppy at any point before the pup/dog leaves the premises and a full refund will be given. We the purchaser, agree to the above stipulations and payment schedules, and will pay in full. Any breach of this agreement or non-payment, gives the seller the right to repossess the dog at any time without your verbal, written consent or knowledge. **Initial**_____

- All puppies will be Vaccinated and each puppy will come with their own records of such.
- All puppies will be dewormed for worms or parasites and will be recorded on their records.
- All puppies will have their own individual puppy health check.
- Puppies will be Micro Chipped at our cost and you will be given information so you can register them as your puppy.
- We will provide a small bag of dog food to get you started.
- A new toy and puppy blanket that smells familiar as it will have their parents and sibling's scent on it.

All our puppies are whelped in our Kitchen/Living room. They are raised with the daily routine of a busy family and these are the first sights and sounds they hear and learn to love. We want the puppies to get used to the smells, sounds, touch and sights of a typical home. We give each pup individual attention each day and increase their stimulation as they grow. We will be sure they are well socialized with all ages of children, adults and dogs before they leave. With children in the home and friends & cousins we have many kisses and hugs to provide to the puppies.

We encourage you to come visit your puppy on Family visiting days as he/she grows.

Looking forward to many years of happiness.
